# LED Satellite

The image shows a green PCB with various components and traces. At the top left, there are two circular components with grey rectangular tabs. At the top right, there is a large circular component with a yellow ring. On the right side, there is a vertical row of five circular components with grey rectangular tabs. In the center, there is a large rectangular area with a grid of small circular components. At the bottom left, there is a large circular component with a yellow ring. At the bottom right, there is a small rectangular component with a grid of small circular components. The text is centered on the board.
